# FY 2003-04 DIRECTOR'S OVERVIEW Summary and Analysis

The enacted budget for Fiscal Year (FY) 2003-04 year-to-date (YTD) includes \$38.55 billion in adjusted gross appropriations. Funding sources include \$16.99 billion in state restricted funds, \$11.63 billion in federal funds, \$8.89 billion in General Fund/General Purpose (GF/GP) revenues, and \$1.03 billion in local and private sources. This represents a decrease of 1.87% in adjusted gross appropriations from the FY 2002-03 YTD and an increase of 0.63% in GF/GP appropriations from the FY 2002-03 level.

#### Consensus Revenue Estimates

The FY 2003-04 GF/GP budget is based on consensus revenue estimates agreed to at the May 13, 2003, Consensus Revenue Estimating Conference. These estimates included a GF/GP revenue increase of \$76.3 million (0.93%) from FY 2002-03 and School Aid Fund (SAF) revenue decline of \$128.7 million (-1.1%) from FY 2002-03. The primary reason for the decline is a one-time revenue source of \$455.0 million included in FY 2002-03 resulting from a timing change in State Education Tax collections. Consensus revenue estimates are discussed briefly in this Overview (page 11) and in detail in the Consensus Revenues section of this document.

#### Additional Funding Resources

General Fund/General Purpose expenditures are also funded with \$531.9 million from non-GF/GP resources: \$168.9 million in unrestricted federal aid received in FY 2002-03 and carried forward to FY 2003-04, an additional \$168.9 million in unrestricted federal aid received in FY 2003-04, a \$195.6 million fund transfer in FY 2002-03 that was carried forward to FY 2003-04, and fund transfers of \$20.8 million in FY 2003-04. See details on page 5.

The Executive budget recommendation included \$119 million of fee increases to replace GF/GP spending and \$128.9 million in tax changes. New and increased fees deposited directly into GF/GP are expected to increase GF/GP revenues \$98.1 million. New and increased fees are estimated to produce \$213.2 million in additional restricted funds that are used to supplant GF/GP spending in various state departments. Other statutory changes increased anticipated restricted funds \$188.8 million. A list of fee changes and other important statutory changes that were part of the budget process is included on pages 9 and 10.

In addition to consensus SAF revenue estimates and a GF/GP transfer, the SAF is funded for FY 2003-04 funded with \$128.3 million in one-time savings from refinancing School Bond Loan Fund debt; see details on page 6.

The FY 2003-04 budget includes \$281.9 million in FY 2003-04 appropriations to be made from tobacco settlement funds; see detail on pages 7 and 8.

This Overview also includes a review of state workforce changes and state spending returned to local governments. Overall content of the budget is summarized on page 11, and reported in Tables 1 through 5 (pages 12 through 16) of this publication. Following this Overview, FY 2002-03 and FY 2003-04 supplemental appropriations included in Public Acts 39 and 173 of 2003 are reported (page 17).

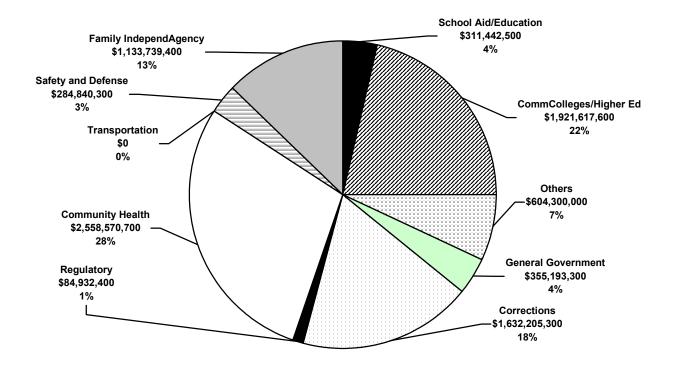

Following the Supplemental section, individual sections explain appropriations by department or major budget area. Each section includes a comparison of FY 2002-03 appropriations with the FY 2003-04 budget, a budget overview, and an analysis and discussion of major budget and boilerplate issues.

The figure on the following page shows the distribution of FY 2003-04 YTD Adjusted Gross and GF/GP appropriations. For Adjusted Gross appropriations, School Aid/Education (34%) and Community Health (25%) receive the largest shares. Of GF/GP appropriations, Community Health (28%), Community Colleges/Higher Education (22%), and Corrections (18%) receive the largest portions.

HOUSE FISCAL AGENCY: SEPTEMBER 2003

<sup>\*\*\$100</sup> million represents net revenue to the School Aid Fund due to the refinancing of School Bond Loan Fund Loans.

#### **CONSENSUS REVENUE ESTIMATES**

State law requires that the State Treasurer or the State Budget Director and the Directors of the Senate and House Fiscal Agencies meet at least twice a year to review and revise GF/GP and School Aid Fund revenue forecasts. A Consensus Revenue Estimating Conference was held on May 13, 2003, to revise estimated revenues for FY 2002-03 and reach a consensus on initial FY 2003-04 revenues. Budget recommendations for FY 2003-04 are based on this consensus agreement which anticipates that baseline GF/GP and SAF revenues will increase by 0.8% between fiscal years 2002-03 and 2003-04.

#### STATE SPENDING RETURNED TO LOCAL GOVERNMENTS

Pursuant to Article IX, Section 30 of the *Constitution of the State of Michigan of 1963*, at least 48.97% of state spending from state resources must be paid to all units of local government. As shown in **Table 5** (page 16), the FY 2003-04 budget provides for \$15.9 billion in payments to local units of government, or 61.5% of the estimated \$25.9 billion in state spending from state resources—well within the constitutional requirement.

#### STATE WORKFORCE CHANGES

**Table 4** (page 15) compares the number of full-time equated or FTE positions (classified and unclassified) between FY 2002-03 and FY 2003-04 year-to-date. Table 4 shows a decrease in total FTE positions from 62,937.7 in FY 2002-03 to 57,744.1 in FY 2003-04—a decrease of 5,193.6 FTEs or 8.3%. Each FTE is equivalent to 2,088 hours of employee compensated time (including overtime, annual leave and used sick leave) during the year.

#### FY 2003-04 APPROPRIATIONS: SUMMARY TABLES

**Table 1** (following) details the FY 2003-04 year-to-date budget. When interdepartmental grants and intradepartmental transfers are deducted, Gross appropriations of \$39.2 billion reduce to \$38.5 billion in Adjusted Gross appropriations.

| Adjusted Gross    | \$38.546.223.200 |
|-------------------|------------------|
| Local and Private | \$1,034,875,850  |
| Federal           | \$11,632,898,950 |
| GF/GP             | \$8,886,841,500  |
| State Restricted  | \$16,991,606,900 |

**Table 2** (following) compares Adjusted Gross appropriations for FY 2002-03 YTD to FY 2003-04 YTD. Appropriations decrease from \$39.28 billion in FY 2002-03 to \$38.55 billion in FY 2003-04—a \$734.74 million or 1.87% decrease.

**Table 3** (following) compares GF/GP appropriations for FY 2002-03 YTD to FY 2003-04 YTD. Appropriations increase from \$8.83 billion in FY 2002-03 to \$8.89 billion in FY 2003-04—an increase of \$55,913,301 or 0.63%.

**Table 4** (following) compares the number of Full-time Equated or FTE employees (classified and unclassified) for FY 2002-03 YTD to FY 2003-04 YTD. Fiscal Year 2003-04 YTD shows a change in total FTE positions from 62,937.7 in FY 2002-03 to 57,744.1 in FY 2003-04—a decrease of 5,193.6 FTEs or 8.3%. Each FTE is equivalent to 2,088 hours of employee compensated time (including overtime, annual leave, and used sick leave) during the year.

**Table 5** (following) shows FY 2003-04 YTD enacted payments to local units of government compared to the amount of spending from state sources provided in each budget. Pursuant to Article IX, Section 30 of the *Constitution of the State of Michigan of 1963*, at least 48.97% of state spending from state resources must be paid to all units of local government. The enacted FY 2003-04 YTD budget provides for \$15.9 billion in state spending to local units of government, 61.5% of the estimated \$25.9 billion in state spending from state resources—well within the constitutional requirement.
